Kevin L. Grumbach, MD, received the prestigious Gold-Headed Cane award at the School of Medicine commencement for 142 medical students on June 1. Runners-up for the award were Paul E. Johnson, MD, and Gregory F. Bland, PharmD, MD.

The highest honor a graduating medical student can receive, the Gold-Headed Cane award is presented to the UCSF senior judged by classmates and faculty as best exemplifying the qualities of the "true physician."

The original Gold-Headed Cane, after which the UCSF award is patterned, has been a symbol in English medicine since 1689. The traditional honor was initiated at UCSF in 1939.

The three nominees for this year's award were inducted into the distinguished Gold-Headed Cane Society the evening before commencement.

Grumbach will serve his residency in family practice at SFGH. A graduate of Lowell High School, he received his AB in psychology from Harvard. He is the son of Melvin M. Grumbach, MD, professor and chair of the Department of Pediatrics.

Johnson will serve his residency in internal medicine at Beth Israel Hospital

Ninety-nine dental students and 18 dental hygiene students will graduate from the School of Dentistry on Sunday, June 16, at 3 p.m. in the Louise K. Davies Symphony Hall.

William S. Giles, assistant clinical professor of restorative dentistry, will address the graduates. Graduate Brett Peterson, DDS, will serve as master of ceremonies.

Grand Marshall for the commencement will be Bertram L. Wolfsohn, DDS, assistant clinical professor of dental health and hygiene and restorative dentistry.

The recipient of this year's Francis A. Sooy Chancellor's Cup, which is presented to the graduating dental student voted by faculty and peers as the most outstanding in the class, will be announced at the ceremony.

Students winning multiple awards at the school's pre-commencement ceremony on May 29 were:

- David W. Nicholls, American Association of Oral & Maxillofacial Surgeons Award, American Dental Society of Anesthesiology Award, Quintessence Book Award, Willard C. Fleming Award, Robert W. Rule, Jr. Award;
- Colleen A. Brown, American Associa-

One hundred ten students will receive PharmD degrees during the School of Pharmacy's commencement exercises on Saturday, June 22, at 1 p.m. in Zellerbach Auditorium, UC-Berkeley.

The Bowl of Hygeia will be awarded to the School of Pharmacy senior who, in the estimation of classmates and instructors, best demonstrates the qualities of an ideal pharmacist.

Commencement speaker will be Cornelius L. Hopper, MD, vice president for Health Affairs, UC-Systemwide. Alumni speaker will be Vincent H. Angell, '52, president of the UC Pharmacy Alumni Association.

The School presented the 1984-85 Long Foundation Awards for Excellence in Teaching in ceremonies on May 10 to four faculty members, an instructor and two teaching assistants. They are: Stephen B. Kahl, PhD, assistant professor, chemistry and pharmaceutical chemistry; Martin Shetlar, PhD, professor, chemistry and pharmaceutical chemistry; Sexton Sutherland, PhD, lecturer, Department of Anatomy; Peter Ambrose, PharmD, volunteer faculty, UC-Irvine/Long Beach Memorial Hospital Program of the UCSF School of Pharmacy; Mirta Millares, PharmD, clinical pharmacy resident; Bruce Bowerman, graduate student, biochemistry and biophysics; and Vincent M. Powers, graduate student, pharmaceutical chemistry.

The annual awards, which total $4,000, are a gift from the Joseph M. Long Foundation. Long is a long-time benefactor to the campus, whose donations have helped modernize Moffitt Hospital and establish the new Long Hospital. A member of the UCSF Board of Overseers, he is founder and chair of the board of Longs Drug Stores.

in Boston. He is a graduate of Creighton Preparatory School in Omaha, Neb., and got his BA in philosophy from Northwestern.

Bland will serve his residency at UCSF in general surgery. A graduate of Mitchell High School in Colorado Springs, he attended the University of Colorado, Boulder, and got his PharmD from the University of Nebraska.

Low cost, convenient screening mamograms for women continue to be given in the UCSF mobile van. The van travels to various San Francisco locations to offer the mammograms—low-dose X-rays that can detect tumors which are too small to be felt by self-examination.

Women need the approval of their physicians to have the mammograms, and screening results will be mailed to each woman's physician.

The procedure takes approximately 20 minutes and costs $30 as compared to the average cost for a mammogram of between $100 and $150. Women are urged to make an appointment by calling x4158 between noon and 3:30 p.m.

The van will be at the following locations during the next few weeks:

- Week of June 10: Transamerica Pyramid, Washington Street between Sansome and Montgomery.
- Week of June 17: Sunset Super, Irving Street between 25th and 26th Avenues.
- Week of June 24: Marina Boulevard, near Scott Street.

For specific locations of the van at other times call x4158.

The new screening program is offered by the Department of Radiology and is under the direction of Edward Sickles, MD, director of breast imaging at UCSF.

Michael Humphreys, MD, UCSF associate professor of medicine and chief of the renal service at SFGH, has been elected SFGH chief of staff. He will be sworn in at the annual SFGH medical staff meeting on Wednesday, June 19, at 6 p.m. in the SFGH Cafeteria. Humphreys replaces Frank Lewis, MD, professor of surgery, who held the position for 1984-85.

Oscar Salvatierra, MD, chief of the UCSF Transplant Service, and Norman Shumway, MD, chair of cardiovascular surgery at Stanford, will be featured on "Second Chance," on KPIX-TV, Channel 5, Wednesday, June 12, at 8 p.m. and again on Sunday, June 16, at 3 p.m. The show is an hour-long special on organ transplantation.

Aaron Smith, PhD, has been named the winner of the John B. Harris Award, given annually to the graduating UCSF student who best exemplifies the qualities of the late teacher, physician and civil rights advocate.

Smith received his PhD in physiological nursing from the School of Nursing this year. In addition to his UCSF coursework, Smith has been a lecturer in family, community and preventive medicine, a clinical social worker and a pediatric social work researcher at Stanford since 1969.

Smith's research activities include a four-year ACS study of the impact of leukemia on the family unit and a two-year Stanford study on what role the family plays in Down's Syndrome children surviving open heart surgery.

The award is in honor of Harris, who was a member of the Department of Medicine for 20 years. He was associate professor and a member of the CVRI and taught in the gastroenterology service at SFGH.

During the 1960s and up to his death in 1973, Harris was vitally concerned about the civil rights movement, and in particular, with extending educational opportunities to disadvantaged groups. He was one of the founders of the UCSF Black Caucus and an adviser of black medical students.

School of Nursing graduates Marcia Lynne Keen, MS, Barbara S. Turner, DNS, and Claire Flavie Wing, BS, were honored at commencement exercises on June 8.

Keen was awarded the Outstanding Master of Science Award, Turner the Distinguished Dissertation Award and Wing the Florence Nightingale Award.

Doctoral students presented Afaf Meleis, professor, mental health and community nursing, with the Mentor of the Year Award; and masters students presented Marylin Dodd, assistant professor, physiological nursing; Marilyn Flood, associate director, nursing services; and Kathryn May, assistant professor, family health care nursing, with Teacher of the Year awards.

The School of Nursing is cosponsoring two international conferences in June at Tel Aviv University with nine UCSF faculty presenting talks.

The "First International Research Conference on Social Support" will be held June 13 and 14, with presentations by Jane S. Norbeck, mental health and community nursing; Kathleen May, 1985 doctoral graduate; Ada M. Lindsey and Marylin J. Dodd, physiological nursing.

"The Second Post-ICN Conference in Higher Education: Issues in Clinical Teaching in Higher Education in Nursing," to be held June 23 and 24, will feature Dean Margretta M. Styles; Marilyn E. Flood, nursing services; Anne J. Davis, mental health and community nursing; William L. Holzemer, computer resources; and Betty L. Highley, family health care nursing.

Styles also will address the plenary session at the International Council of Nurses in Tel Aviv on June 15.

Minority health problems, doctor-patient communication, reproductive health, mental health issues and violence against women will be examined at the second annual Women, Health and Healing Summer Institute from June 14 to 26 on the UC-Berkeley campus. The two-week program will conclude with a session on how to work the teaching improvements into curriculum and funding programs.

The 35 participants in this year's program will come from community colleges, medical schools, universities, schools of nursing and women's study programs from around the world.

The Institute is designed to bring about equality in health care for women, explained codirector Virginia Olesen, PhD, professor, sociology.

Sponsored by the Department of Sociology and Behavioral Sciences in the School of Nursing, the program is codirected by Sheryl Ruzek, PhD, MPH, associate professor, sociology.

IN MEMORIAM

Ruth Prael, staff research associate, Department of Research, LPPI. She was on the staff of LPPI for over 25 years, serving as secretary, data processor, administrative assistant and staff research associate. Prael received the 1976 Chancellor's Award for Public Service for her work in community mental health. A trust fund has been created for her youngest child in her memory. Call x77-416 for information.

Benjamin McKinnon. He came to UCSF in 1981 as a psychiatric technician and became senior psychiatric technician in 1984. Prior to working at UCSF McKinnon toured with the musical group Santana.

An exhibit honoring Ishi, the last wild Indian of North America, who lived in the UC Anthropology Museum on this campus, is on display in HSW 301 through October.

The exhibit, which was put together in cooperation with UC-Berkeley's Lowie Museum, contains photographs of Ishi, a hat worn by him, a fire-making set and a small momento to thank Ishi for his participation in the Panama Pacific International Exposition of 1915.

Ishi was a middle-aged Yahi who was discovered, half-starved outside the town of Oroville, CA in 1911.

While UC anthropologists, led by A.L. Kroeber, studied Ishi's primitive customs, Ishi taught them the tribal arts including the use of the bow and arrow. Ishi died in 1916 of tuberculosis.

The Vascular Surgery and Neurology departments at the VAMC are participating in a national VA Cooperative Research Study on "Asymptomatic Carotid Stenosis: Etiological Importance in the Development of Stroke." The primary objective of the project is to evaluate which treatment is best for carotid stenosis in asymptomatic patients—either carotid endarterectomy (surgical removal of plaque from carotid artery) and aspirin or aspirin alone.

Physicians wishing to refer patients should call Sandra Perez, RN, at 221-4810, beeper 432, or William Krupski, MD, 221-4810, x2938.
